

DISTRICT GOVERNOR'S MESSAGE

I believe that **YOU**, the individual LION, are the most important person in our association. It is you who performs the SERVICE projects. It is you who performs the fund raising activities to support the service projects. It is you who forms the new clubs and renews older clubs. And, it is you who makes District 24-E strong.

I want to see the clubs of District 24-E renew their commitment to service by creating or adopting a new service activity this year. Make the ordinary extraordinary by increasing your impact of service by taking on new service challenges. Spend more time SERVING than MEETING.

I want to see a year of positive membership growth. I have challenged each club to have a net increase over the year of three members. You can do this but it will take team work. This means that the larger clubs will have to have a larger net growth to get all of our clubs to average three new members.

I have also challenged the District to charter three new Lions clubs and one new LEO club. This can be accomplished. You can do this.

I am humbled by the faith and commitment of the Lions of District 24-E. I thank you for giving me the opportunity to serve as your District Governor. I look forward to our year of serving together.

Yours in Lions,

Dallas T. Scott

District Governor 24-E
